# POISON CONTROL SAFETY

Do have Poison Control's number?  
**1-800-222-1222**

## The Facts

- 9 out of 10 poisonings happen at home
- Every day, 374 children in the U.S. are treated in an ER because of poisoning
- More than half of the calls to poison control are for kids under age 5

## Safety Tips

- **Out of reach:** store medications, batteries, alcohol and household products in childproof containers or locked cabinets
- **Read:** follow the dosage directions on medications
- **Know the number to call:** Put the poison control number in your cell phone, on your refrigerator, and make sure babysitters have it

**For further information, please contact Poison Control**

**1-800-222-1222** or <http://www.poison.org>
